TOPAZ VIDEO AI: ADHD VISUAL DECISION CARD

RJMedia Hardware Reality Sheet | Max Memory: 85% | Max Processes: 1 | CPU Grain: OFF

1. MODERN PHONE

Solfest 2021 Captures

- Buzzcocks (225K views)
- Razorlight (Solfest 21)
- Maximo Park (Solfest 21)

ACTION:
STOP! DO NOT RUN TOPAZ!

WHY:
Your phone's internal ISP chip already denoised and sharpened the edges while recording.

Running Proteus or Iris on clean phone footage double-sharpens halos around mic stands and turns faces into plastic.

UPLOAD 100% RAW!

2. 90s VHS / TV DOC

Peter Green 97 / Mansun
